DETAILED ACTION

Allowable Subject Matter

1. Claims 1-9 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

Claim 1 and its dependent claims are found to be allowable because the prior art of record neither teaches nor reasonably suggests the recitations found therein, including the specific screw bore/magnet combination which enables the yarn withdrawal nozzle to be removed quickly and without the effort needed in the prior art. While the prior art does address magnets and their use, none of them provide for the centering shoulders as taught and claimed, the particular use and location not being obvious to one ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Baur (2005/0229580), Stahlecker et al (2004/0255569), Grecksch et al (5794430), Lauschke (5768881), Stahlecker et al (5638671), and Havel et al (4110961) all teach what is well known in the art.
